

# Dashing Diva French Wrap Manicure

## APPLICATION

### Products Needed

French Wrap Plus • Base Seal • Top Seal • Brush-On Glue  
100/180-Grit White File • 150/240-Grit Pink Sponge File

### Instructions

- Clean and prep nails.** Treat cuticles. Dry cuticle prep is recommended. Shape natural nails using White File.
- Size French Wrap Plus.** Select the proper size for all 10 nails. French color should fully cover free edge and be flush with sidewalls.
- Buff free edge.** Lightly buff free edge with 240-grit side of Pink Sponge File. Use a dry lint-free wipe to remove all dust and filings from natural nail plate.
- Apply Brush-On Glue.** Brush adhesive onto side corners of natural nail free edge and onto entire band of French color inside French Wrap Plus housing applicator.
- Apply French Wrap Plus.** Place French Wrap Plus onto free edge as you did when sizing in Step 2. Make sure French color is aligned flush with free edge. Avoid any overhang of French color.
- Hold and press out to set.** Holding French Wrap Plus in place, press from the center of the housing applicator out to the sides of the applicator to help with adhesion. Repeat pressing out motion 2-3 times.
- Clip housing applicator.** Use nail clipper to clip application tab at raised circle to release housing applicator from French color.
- Wipe away excess adhesive.** Carefully wipe away excess Brush-On Glue with a dry lint-free wipe before adhesive dries.
- Shape free edge.** File French color band to align with free edge using the White File. There should be no overhang of French color. This product should not be used as an extension.
- Buff French color.** Lightly buff over French color with the 240-grit side of Pink Sponge File. Use a dry lint-free wipe to remove all dust and filings from natural nail plate.
- Apply 1 coat of Base Seal.** Let dry 2-3 minutes.
- Apply 2 coats of Top Seal.**

### Application Option

For a warm pink finish on nail beds, apply a sheer pink French manicure polish in a sideways manner up to start of French color after the Base Seal fully dries, approximately 5-10 minutes. Finish with 2 coats of Top Seal.

## MAINTENANCE

### Products Needed

Non-acetone polish remover • Cotton ball • Base Seal • Top Seal  
150/240-Grit Pink Sponge File

### Instructions

- Remove Top and Base Seal.** Lightly rub nails with non-acetone polish remover and a cotton ball. Avoid using any acetone on French color to keep it intact.
- Treat cuticle area.** Push back cuticles and remove non-living tissue on nail plate.
- Buff French Wrap color.** Lightly buff over French color with 240-grit side of Pink Sponge File.
- Apply 1 coat of Base Seal.** Let dry 2-3 minutes.
- Apply 2 coats of Top Seal.**

## REMOVAL

### Products Needed

Pure acetone • Cotton ball

### Instructions

- Remove product.** Rub nails gently with cotton ball soaked with pure acetone.
- Nourish cuticles and nails.** Wash hands and apply Cuticle Nectar to nails and cuticles.
